

USER MANUAL

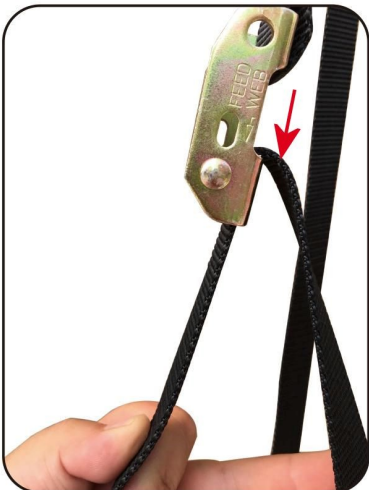

1. Hang the strap over the support bar

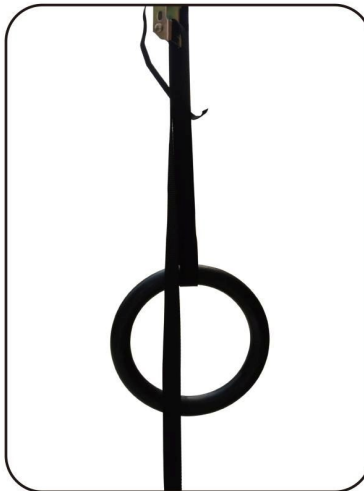

2. Pass the strap through the ring

3. Pass the strap through the buckle following the arrow direction

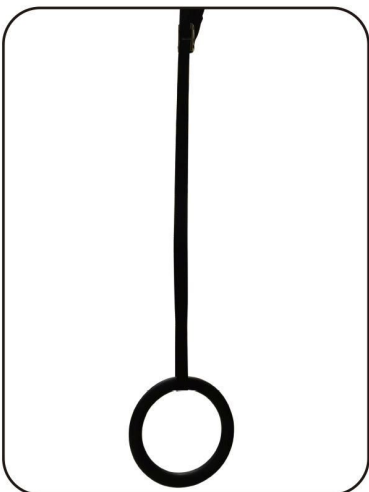

4. Pull out the strap from the other end of the buckle

5. Adjust the strap length to a suitable position and roll up the excess strap

6. Tie up the excess strap using the velcro

7. Installation is completed

CAUTION: Please follow the installation steps carefully. Wrong installation may result in broken buckle which will NOT be covered by warranty.

Please pay attention to step 3 and 4 and make sure you insert the strap through the buckle from the right place and direction.
